

# *Society of* PEDIATRIC PSYCHOLOGY

*Division 54 of the American Psychological Association*

**Vision:** Healthier children, youth and families

**Mission:** To actively promote the health and psychological well-being of all children, youth and families

## **Strategic Drivers:**

- Recruit, engage, develop, and retain a diverse and inclusive community of members
- Focus on culturally-responsive evidence-based practice
- Serve as the authoritative source of information about pediatric psychology for the public, stakeholders, and health professionals
- Advance and support science and education initiatives in pediatric psychology, including an annual conference and peer-reviewed journals
- Develop and sustain communication outlets that provide a valuable and integral resource for the membership and the public
- Advocate for pediatric psychology on the national and international levels
- Advocate for policies that benefit the health and well-being of all children, youth, and families
- Support priority research initiatives in pediatric psychology

[www.societyofpediatricpsychology.org](http://www.societyofpediatricpsychology.org)

**Pediatric Psychology** is an integrated field of science and practice in which the principles of psychology are applied within the context of pediatric health.

The field aims to promote the health and development of children, adolescents, and their families through the use of evidence-based methods.

Founded in 1969, the field has broad interdisciplinary theoretical underpinnings and draws from clinical, developmental, social, cognitive, behavioral, counseling, community, and school psychology.

#### **Areas of expertise:**

- Psychosocial and education
- Developmental and contextual factors contributing to the etiology, course, and outcome of pediatric medical conditions
- Assessment and treatment of behavioral and emotional concomitants of illness, injury, and developmental disorders
- Prevention of illness and injury
- Promotion of health and health related behaviors
- Training and mentoring of psychologists and providers of medical care
- Improvement of health care delivery systems and advocacy for public policy that serves the needs of children, adolescents, and their families

#### **Membership benefits:**

- Subscription to the *Journal of Pediatric Psychology* and *Clinical Practice in Pediatric Psychology*
- Opportunities for members at the SPP Annual Conference: symposia, poster sessions, mentoring, networking, and continuing education credits
- Representation and advocacy for pediatric psychology
- Option to join SPP member listserv, with postings about job openings, discussion of clinical issues, and referral requests
- Option to join the SPP student listserv addressing training and early career issues
- Programming specific to pediatric psychology at the annual APA meeting
- SPP electronic newsletter, *Progress Notes*, published 6 times per year
- Opportunities to be involved and volunteer in SPP
- Various awards and grants for students and psychologists at all career stages
- Opportunities to participate in various Special Interest Groups
- Participation in the SPP mentoring program – as mentee or mentor
- Access to online member directory and option to be listed in this directory
