SPPAC Mission

The Society of Pediatric Psychology Annual Conference (SPPAC) aims to advance SPP’s mission to promote the health and psychological well-being of children, youth and their families through science and an evidence-based approach to practice, education, training, advocacy, and consultation by:

1. Advancing the science of pediatric psychology and related fields through dissemination of cutting edge research; promotion of research that is culturally, ethically, and developmentally sensitive and includes diverse populations; and education on evidence-based assessment, intervention, and emerging areas of research, clinical care, and policy.
2. Providing a forum for individuals at all levels, from students to established investigators and clinicians, to facilitate consultation, collaboration, and mentorship.
3. Promoting the role and value of pediatric psychology in a changing healthcare environment nationally and internationally.

SPPAC Theme

The 2020 SPPAC theme is “Pushing the Boundaries: Trailblazing the Next 50 Years of Pediatric Psychology”. The conference includes 3 days of programming consisting of skill-building workshops, invited speakers, concurrent symposia, professional development programming, poster sessions, Special Interest Group (SIG) meetings, and several networking opportunities through social hours, breaks and meals. Conference programming will include presentations on important and timely topics relevant to child health and psychological well-being, including healthcare policy/advocacy, implementation science, and stakeholder collaborations to improve care and outcomes. Innovative strategies for funding, implementing and disseminating research and clinical programs in pediatric psychology will also be highlighted.
